Index of Subjects

Acanthocephaloides geneticus sp.nov., description of, 165
Acetylcholinesterase, secretion of as an anthelmintic parameter, 425
Acid endopeptidase, immunoprecipitation of from extracts of malarial schizonts, 305
Acquired resistance, of simuliids to *Onchocerca lienalis*, 269
Aedes aegypti, migration of the infective larvae of *Brugia pahangi* in, 369
Amastigote, 3-dimensional structure of in *Leishmania mexicana mexicana*, 13
Amino acid, absorption of by *Echinococcus granulosus*, 153
Anthelmintic screen, secretion of acetylcholinesterase is a parameter for, 425
Antigenic variation, and the metacyclic surface coat in *Trypanosoma vivax*, 75
during infection of different host species by *Trypanosoma vivax*, 51
in *Trypanosoma vivax*, 581
Antigen recognition, by onchocerciasis patients, 569
Antigen switching, in *Trypanosoma brucei*, 355
Antigens, cross-reactive among *Schistosoma mansoni*, *Fasciola hepatica* and *Trichinella spiralis*, molecular identity of, 133
Arnoglossus laterna, description of a new species, *Acanthocephaloides geneticus* in, 165
Ascaridoid nematodes, *in vitro* cuticle production and ecdysis in, 711
Ascaris suum, chitin synthase in the eggs of, 219
Association, between pairs of infections of intestinal parasites, 209

Behaviour, of pathogen-infected vectors, 721
Biomphalaria glabrata, interactions of the plasma proteins of with *Schistosoma mansoni*, 653
Blastocrithidia familiaris, host–parasite relationship of in *Lygaeus pandurus*, 1
Brugia pahangi, migration of the infective larvae of in the mosquito, 369

Callitetrarhynchus gracilis, frequency distributions of in *Saurida* spp., 227
Capra hircus, species of *Eimeria* coccidia in, 279
Chemotaxis, induced by schistosomula of *Schistosoma mansoni*, 117
Chitin synthase, properties and localization of in *Ascaris suum* eggs, 219
Chromosomes, of *Transversotrema patialense*, 245
Coccidia, of *Eimeria* spp. in the domestic goat, 279
Concurrent infections, suppression of in cestodes, 199
Cooperia oncophera, mortality and migration of, 643
Cross-protective interactions, between hymenolepid tapeworms, 665
Cross-reactive antigens, molecular identity of in various parasites, 133
Cuticle production, in larval marine ascaridoid nematodes, *in vitro*, 711
Cyclical transmission, of the ILDar 1 serodeme in *Trypansoma vivax*, 581
Cysticercosis, population dynamics in, 599, 621
Cytology, of *Transversotrema patialense*, 245

Death, time and site of during migration of radio-isotope labelled schistosomula, 101
Development, *in vitro* of *Echinococcus granulosus*, 379
of *Ostertagia ostertagi*, 471
of *Schistosoma bovis*, 337
of *Taenia crassiceps* during concurrent infections with *Mesocestoides corti* in mice, 199
Diplostomiasis, epidemiology of in farmed rainbow trout, 699
Diplostomum spathaceum, the distribution and abundance of in farmed rainbow trout, 699
Dirofilaria immitis, external monitoring of ^{203}Hg-labelled microfilariae of, 463
gametogenesis and fertilization in, 181
microfilariae, radio-isotope labels for, 451
Dietary carbohydrate, effects of on the nutritional physiology of *Trichoplusia ni*, 25
DNA hybridization, use of to determine relationships between *Trypanosoma brucei* stocks, 31
Dynamics, of migration of *Schistosoma mansoni* in mice, 83

Ecdysis, in larval marine ascaridoid nematodes, *in vitro*, 711
Echinococcosis, population dynamics in, 599, 621
Echinococcus granulosus, absorption of cycloleucine and α-aminoisobutyric acid by, 153
  biological parameters of, 599
  host responses to during infection, 391
  in vitro development of from posterior bladders and ruptured brood capsules, 379
  mathematical model of the life-cycle of, 621
Egg-shell, role of chitin synthase in the formation of in *Ascaris suum*, 219
Eimeria spp., in the domestic goat, 279
Encapsulated oocysts, administration of in infectivity studies, 499
Eosinophilia, induced by the schistosomula of *Schistosoma mansoni*, 117
Epidemiology, of diplostomiasis in farmed rainbow trout, 699
Erythrocytes, isolate-specific proteins on the surface of, 511
  oxidant-induced damage to during infection with *Plasmodium falciparum*, 559
  sialic acid analysis of during infection with *Plasmodium berghei*, 545
  sialoglycoproteins and sialic acids of during infection with *Plasmodium knowlesi*, 527

Fecundity, of *Tribolium confusum*, effect of *Hymenolepis diminuta* on, 405
Feeding behaviour, of pathogen-infected vectors, 721
Fertilization, in *Dirofilaria immitis*, 181
Frequency distributions, of *Callitetrarhynchus gracilis* in *Saurida* spp., 227

Gametogenesis, in *Dirofilaria immitis*, 181
  in *Transversotrema patialense*, 245
Genetics, of the host, and effect on parasite survival mechanisms, 253
Ghana, prevalence of intestinal parasites in pre-school children in, 209
Giardia muris, mouse-to-mouse transmission of infections with, 595
Glutamate dehydrogenase, of *Plasmodium falciparum*, antibodies to, 313

Host mortality, a method for estimating, 227
Host nutrition, effect of in determining reproductive success in parasites, 675
Host–parasite relationship, of *Blastocrithidia familiaris* in *Lygaeus pandurus*, 1
Host responses, to primary and secondary infection with *Echinococcus granulosus*, 391
Host-specific components, influence of on reproductive success of *Transversotrema patialense*, 683
Hymenolepid tapeworms, interactions between, 665
Hymenolepis diminuta, experimental infection of *Tribolium confusum* with, 405
Hyposoter exiguae, effect of parasitization by on the nutritional physiology of *Trichoplusia ni*, 25

ILDar ! serodeme, cyclical transmission and antigenic variation of in *Trypanosoma vivax*, 581
Immunity, to hymenolepid tapeworms, 665
Immunoprecipitation, of glutamate dehydrogenase from *Plasmodium falciparum*, 313
Infection, of *Tribolium confusum* with *Hymenolepis diminuta*, 405
Infection with *Giardia muris*, transmission of from mouse-to-mouse, 595
Infective larvae, of *Brugia pahangi*, the migration of in mosquitoes, 369
Infectivity, of encapsulated oocysts, 499
Interferon-γ, induces macrophages to kill schistosomula, 325
Intestinal parasites, prevalence of in pre-school children in Ghana, 209
Invasion, possible mechanism of by *Plasmodium knowlesi* merozoites, 291
Isolate-specific proteins, on *Plasmodium falciparum*-infected erythrocytes, 511

Lamella membranes, possible role in erythrocyte invasion by *Plasmodium knowlesi* merozoites, 291
Leishmania mexicana mexicana, 3-dimensional structure of the amastigote of, 13
Leucocyte adherence, to the plerocercoid *Ligula intestinalis*, role of serum in, 413
Ligula intestinalis, the role of serum in leucocyte adherence to, 413
Localization, of chitin synthase in *Ascaris suum* eggs, 219
Lygaeus pandurus, host–parasite relationship of *Blastocrithidia familiaris* in, 1
Lymphokines, role of in the killing of *Schistosoma mansoni*, 325

Macrophages, schistosomulicidal action of is induced by lymphokines and interferon-γ, 325
Malarial schizonts, immunoprecipitation of acid endopeptidase from, 305
Membrane receptors, a study of in the protoscoleces of *Echinococcus granulosus*, 153
Mercury, toxic effects of on *Dirofilaria immitis* microfilariae, 451
use of in radio-isotope labelling of *Dirofilaria immitis* microfilariae, 451, 463
Mesocestoides corti, suppression of a concurrent infection of *Taenia crassiceps* by, 199
Metacyclic antigens, independent expression of by *Trypanosoma brucei rhodesiense*, 67
Metacyclic stage, of *Trypanosoma vivax* possesses a surface coat, 75
Microfilariae, ^{203}Hg labelling of, 451, 463
Migration, of *Schistosoma mansoni*, an ultrastructural study of, 343
of *Schistosoma mansoni*, dynamics of through the vascular system of the mouse, 83
of the infective larvae of *Brugia pahangi* in mosquitoes, 369
of the infective larvae of *Ostertagia ostertagi* and *Cooperia oncophora*, 643
Model, to assess parasite survival mechanisms, 253
Moniliformis dubius, morphology of the testis of the larvae of, 173
Molecular identity, of cross-reacting *Schistosoma mansoni* major antigen, 133
Morphology, of the testis of the larvae of *Moniliformis dubius*, 173
Mortality of *Ostertagia ostertagi*, 471
of the infective larvae of *Ostertagia ostertagi* and *Cooperia oncophora*, 643
Murine echinococcosis, host responses in, 391

Neutrophilia, induced by the schistosomula of *Schistosoma mansoni*, 117
New species, description of *Acanthocephaloides geneticus* parasitizing *Arnoglossus laterna*, 165
Nippostrongylus brasiliensis, use of in *in vitro* anthelmintic screens, 425
Numerical taxonomy, use of to determine relationships between *Trypanosoma brucei* stocks, 31
Nutritional physiology, of *Trichoplusia ni*, 25

Onchocerca lienalis, acquired resistance to in simuliids, 269
Onchocerciasis patients, antigen recognition by, 569
Oocyst encapsulation, a method of administration in infectivity studies, 499
Ostertagia ostertagi, development and mortality of, 471
mortality and migration of, 643
Oxidant-induced damage, induced in *Plasmodium falciparum*-infected erythrocytes, 559

Parasite density, effect of on sex determination in nematodes, 431
Parasite-related host mortality, a method for estimating, 227
Pathogen-infected vectors, feeding behaviour in, 721
Plasma proteins of *Biomphalaria glabrata*, interactions of with *Schistosoma mansoni*, 653
Plasmodium berghei, sialic acid analysis of erythrocytes infected with, 545
Plasmodium falciparum, antibodies to the glutamate dehydrogenase from, 313
identification of isolate-specific proteins on erythrocytes infected with, 511
oxidant-induced damage to erythrocytes infected with, 559
Plasmodium knowlesi, immuno-precipitation of acid endopeptidase from, 305
-infected erythrocytes, the sialoglycoproteins and sialic acids of, 527
possible mechanism of invasion of erythrocytes by the merozoites of, 291
Population density, effect of in determining reproductive success in parasites, 675
Population dynamics, in echinococcosis and cysticercosis, 599, 621
Posterior bladders, *in vitro* development of hydatid cysts from, 379
Prevalence, of intestinal parasites in pre-school children in Ghana, 209
Protoscoleces of *Echinococcus granulosus*, absorption of amino acids by, 153

Radio-isotope labelling, of *Dirofilaria immitis*, 451
Replication, of *Schistosoma bovis* daughter sporocysts, 337
Reproductive success, of *Transversotrema patialense*, 683
in parasites, inequalities in, 675
Rhoptries, lamella membranes of in *Plasmodium knowlesi* merozoites, 291
Romanomermis culicivorax, sex determination and density-dependent population regulation in, 431
Ruptured brood capsules, *in vitro* development of hydatid cysts from, 379
Rutilus rutilus, adherence of the leucocytes of to *Ligula intestinalis*, 413

Salmo gairdneri, epidemiology of diplostomiasis in, 699
Schistosoma bovis, the intramolluscal development of, 337
Schistosoma mansoni, an *in vivo* model for the study of chemotaxis induced by, 117
an ultrastructural study of the pulmonary migration of, 343
dynamics of migration in the mouse, 83
interactions of the plasma proteins of *Biomphalaria glabrata* with, 653
killing of by lymphokines and macrophages, 325
migration of radio-isotope labelled schistosomula of in mice, 101
molecular identity of the major cross-reacting antigen of, 133
Schistosomula, determination of the time and site of death of in mice, 101
Schizont-infected erythrocytes, sialoglycoproteins and sialic acids, of 527
Serum, the role of in leucocyte adherence to *Ligula intestinalis*, 413
Sex determination, and density-dependent population regulation, 431
Sialic acid analysis, of *Plasmodium berghei*-infected mouse erythrocytes, 545
Sialoglycoproteins and sialic acids, of *Plasmodium knowlesi* schizont-infected erythrocytes, 527
Sialoglycoproteins, tritium labelling of in *Plasmodium berghei*-infected erythrocytes, 545
Simulium spp., acquired resistance of to *Onchocerca lienalis*, 269
Sporocystogenesis, three patterns of in *Schistosoma bovis*, 337
Structure, 3-dimensional in *Leishmania mexicana mexicana* amastigotes, 13
Subspecies, determination of relationships between in *Trypanosoma brucei*, 31
Surface coat, of the metacyclic stage of *Trypanosoma vivax*, 75
Survival mechanisms, of parasites in a genetically defined host-system, 253

Taenia crassiceps, suppression of during concurrent infection with *Mesocestoides corti* in mice, 199
Testis, observations on the morphology of in *Moniliformis dubius* larvae, 173
Three-dimensional structure, of the leishmania amastigote, 13
Transmission, of *Giardia muris* infections, 595
Transversotrema patialense, chromosomes and gametogenesis in, 245
host-specific components of the reproductive success of, 683
Tribolium confusum, experimental infection of with *Hymenolepis diminuta*, 405
Trichoplusia ni, nutritional physiology of, 25
Trypanosoma brucei, analysis of antigen switching rates in, 355
Trypanosoma brucei rhodesiense, variable antigen repertoire expression by, 67
Trypanosoma brucei stocks, determination of the relationships between, 31
Trypansoma vivax, antigenic variation in, 51, 581
metacyclic stage of possesses a surface coat, 75

Ultrastructural study, of the pulmonary migration of *Schistosoma mansoni*, 343

Variable antigen repertoire, expression of by *Trypanosoma brucei rhodesiense*, 67
Variable antigen types, expression of by *Trypanosoma vivax* in different host species, 51
Variant antigen types, analysis of switching rates in, 355

PARASITOLOGY
